EXHIBIT A
SCOPE OF WORK

1. Background

Assembly Bill (AB) 32 The Global Warming Solutions Action of 2006 charges the California Air Resources Board (CARB) with designing emission reduction measures to meet statewide emission limits for greenhouse gases (GHG). AB 32 directed CARB to design and implement measures that achieve real, quantifiable, cost-effective reductions of GHG emissions to return California to 1990 emissions levels by 2020. CARB was authorized to consider using market-based compliance mechanisms, such as a cap-and-trade program, to achieve the necessary emission reductions. Additional information on AB 32 and the CARB climate change program is available at: http://www.arb.ca.gov/cc/cc.htm.

Western Climate Initiative, Inc. (WCI, Inc. or Contractor) was formed as a nonprofit organization to provide coordinated administrative and technical support to California and other states and provinces implementing emissions trading programs to reduce GHG emissions. By coordinating support across jurisdictions, WCI, Inc. enables cap-and-trade programs to be administered at a lower cost than would be possible with independent administration by each jurisdiction. Coordinated administrative support ensures that all the programs maintain the highest level of security, enhances market oversight, reducing the potential for fraud and malfeasance, and provides a framework that can be expanded as more jurisdictions implement their respective programs.

As a participating jurisdiction, and as required in Senate Bill 1018 (California Government Code Section 12894), California holds two (2) voting positions and two (2) nonvoting positions on the WCI, Inc. Board of Directors. Québec, British Columbia, and Nova Scotia are also participating jurisdictions (more information regarding the WCI, Inc. Board of Directors and bylaws is available at: http://www.wci-inc.org/ The funding contributions to WCI, Inc. differ among jurisdictions based upon covered GHG emissions in each jurisdiction.

2. Scope of Work

WCI, Inc. agrees to provide CARB with participation in WCI, Inc. with access to administrative systems being developed and administered to support the implementation of state and provincial GHG trading programs. CARB will be provided access to administrative systems including development and administration of Cap-and-Trade Compliance Instrument Tracking System Service (CITSS); administration of a CITSS help desk; development and administration of an allowance auction platform; coordinated auction financial administration; and analyses supporting market monitoring performed by each jurisdiction of allowance auctions and allowance and offset credit trading.
