Description of the Services

A. Background

Ministry of the Environment and Climate Change

The Ministry is responsible for protecting Ontario's air, water and land by developing and implementing legislation, policies and programs in support of its vision of a healthy environment for a strong Ontario. As part of this approach, the Ministry monitors entities emitting 25,000 metric tonnes or more greenhouse gases (GHGs) annually.

These entities will be participants in the Ontario government's cap and trade program, which is anticipated to be activated in 2016.

Ontario Cap and Trade Program

In April 2015, Ontario announced its intention to link its cap and trade program with similar programs in California and Quebec.

Ontario's program is anticipated to include the following:

- Ontario-only auctions of carbon allowances, along with linked auctions with California and Quebec, at a frequency to be determined; and
- Reserve sales of carbon allowances, on a frequency to be determined.

Western Climate, Initiative Inc. (WCI, Inc.)

WCI, Inc. was incorporated in 2011 as a non-profit corporation to provide technical and scientific advisory services to States of the United States and Provinces and Territories of Canada in the collaborative implementation of their respective greenhouse gas emissions trading programs.

WCI, Inc. provides coordinated administrative and technical support to member state and provincial governments implementing emission trading programs to reduce GHG emissions. By coordinating support across jurisdictions, WCI, Inc. enables cap and trade programs to be administered at a lower cost than would be possible with independent administration by each jurisdiction. Coordinated administrative support ensures that all programs maintain the highest level of security, enhances market oversight, reduces the potential for fraud and malfeasance, and provides a framework that can be expanded as more jurisdictions implement their respective programs.

B. Description of the Services

WCI, Inc. agrees to provide Ontario, as a member jurisdiction, with participation in WCI, Inc. with access to administrative systems being developed and administered to support
the implementation of state and provincial greenhouse gas trading programs. Ontario will be provided access to administrative systems including development and administration of the Cap-and-Trade Compliance Instrument Tracking System Service (CITSS); administration of a CITSS help desk; development and administration of an allowance auction platform; coordinated auction financial administration; and analyses supporting market monitoring performed by each jurisdiction of allowance auctions and allowance and offset credit trading.

The parties to this Contract acknowledge and agree that in addition to the aforementioned Services, WCI, Inc. also undertakes such activities necessary for the administration and operation of the corporation ("Administrative Services"). The Administrative Services also may include other services requested by any participating jurisdiction and approved by the WCI, Inc. Board of Directors. These Administrative Services are to the benefit of all WCI, Inc. participating jurisdictions, including Ontario. The Ministry further acknowledges and agrees that the Payment Amounts set forth in Schedule B of this Contract will be used, in part, to cover these Administrative Services and that WCI, Inc. does not and will not separately itemize or report to the Ministry the Payment Amounts attributable to any Administrative Services (whether individually or jointly).
